WHD: Kristin & Brandon

— January 23, 2010.

"We both love nature and wanted our wedding to represent the beauty of God's creation. We're also wedding photographers, so we knew that we

had to create a design that would bring out our personalities in the photos. The main theme revolved around raw colors; we wanted simplistic, but if we had to use three words to describe the day they would be: woody, organic and humble." ▶

"In lieu of flowers, we donated the money to charity. Our guests wrote notes that we hand-delivered."

"The flowers for honeymoon were carved out of wood."

"My friend—my best friend—made my toasts."

"I used my own wood for the wedding."

"The reception was held in a friend's backyard."

"All our wedding was custom made by D'Ann Design."

"The honeymoon was planned by my brother."

"All photos of our wedding featured the flowers."
